

MD ABID HASSAN

OBJECTIVE

To pursue a challenging career where I can utilize my academic knowledge, industry experience, and expertise in Object-Oriented Programming, Web Technologies, and Databases to develop efficient and scalable applications. I am eager to explore my potential and contribute to organizational growth with dedication and continuous learning.

EXPERIENCES

❖ Industry Experiences (Total Exp: 4 Years) -

Software Engineer | *Gulf State Software (USA, Remote)* | [May, 2022] – Present

- Building and maintaining robust software solutions for international clients, providing ongoing client support.
- Collaborating with cross-functional teams to implement features and optimize applications.

Junior Software Engineer | *Shikkhanobish (Online Education Platform, Bangladesh)* | [Sep, 2021] – [Feb, 2022] | 6 Months

- Developed in-house applications to enhance the online education experience.
- Gained hands-on experience in full software development lifecycle over six months.

Overview Project Experiences: -

- **Full Stack:** Three Web applications. Among them, one using ASP.NET Core MVC, one using ASP.NET MVC, and another with a separated architecture using ASP.NET Core Web API for the backend and Angular for the frontend.
- **Backend:** Three RESTful API based projects whereas two of them with ASP.NET MVC Core based on Entity Framework and another one with ASP.NET MVC Core fully based on Stored Procedure with ADO.NET.
- **Frontend:** One Project with Blazor.
- **Windows:** One Windows Application with WPF.
- **Android:** One Xamarin Android App UI design.

❖ Languages -

- C#
- JavaScript
- HTML
- CSS
- SQL

❖ Backend -

- ASP.Net MVC Core
- ASP.Net MVC

❖ Frontend -

- Angular
- jQuery AJAX
- Bootstrap
- Razor
- Blazor

❖ Cross-Platform & Desktop -

- Xamarin (Android)
- WPF (Windows)

❖ Web Services & APIs -

- RESTful Web API
- API Scheduling

❖ Database Management -

- MS SQL Server
- Entity Framework
- ADO.NET
- Stored Procedure
- LINQ

Note: All .NET projects were implemented using **Entity Framework** and designed following **Layered Architecture**, **MVC Pattern** and **Repository Pattern** while **Dependency Injection** was applied in the ASP.NET Core projects.

Elaborately Project Experiences: -

Gulf State Software — Projects –

➤ **Intelligence Academy HRM & Payroll** - *(Full Stack | ASP.NET Core Web API | RESTful Web API | Angular)*

Developed a full-stack HRM & Payroll management system with employee management, salary revision and automated payroll generation.

➤ **Amedig Apparel Warehouse Management API, Migration** - *(Backend | RESTful Web API | ASP.NET → ASP.NET Core Migration)*

Migrated a legacy ASP.NET MVC 4.5 monolithic application into a separated architecture with an ASP.NET Core 9 Web API backend and independent frontend application, improving system performance, scalability, maintainability, and security.

➤ **Amedig Apparel Warehouse Management System** - *(Full Stack | ASP.NET MVC | JavaScript | jQuery/Ajax | Angular JS)*

Designed and developed modules for the warehouse's product management with a lot of reports, inventory control, order processing, shipment tracking and ensuring a seamless UI/UX experience.

➤ **Amedig Apparel Report & Email Service API** - *(Backend | ASP.NET | RESTful Web API)*

Implemented an automated reporting and email notification system to enhance data analysis.

➤ **Amedig Apparel Tab App** - *(Windows Application | WPF)*

Developed a WPF-based application for tab management, especially product data entry by operator, and generating advanced reports.

➤ **Event Center** - *(Full Stack | ASP.NET MVC | Google Maps Third Party API Integration | JavaScript | jQuery/Ajax)*

Built an event management platform with Google Maps API integration to display and track event locations in real time.

Note: Worked on that Warehouse Management System (WMS) including **Inventory** and **Shipping** modules.

❖ DevOps -

- Azure DevOps
- GitHub

❖ Design Patterns -

- MVC
- Repository Pattern
- Dependency Injection

❖ Reports & Documentations -

- Doc (Crystal Report)
- PDF (Crystal Report)
- PDF (Adobe)
- PDF (iTextSharp)
- Excel (SL Document)
- Email with SMTP Gmail
- Email with SMTP Outlook
- Email with Mailgun
- Email with Sendgrid
- Charts/Graphs for Data Visualization (.NET - DataVisualization, Javascript - ApexCharts)

❖ Security -

- JWT Authentication with Bearer Token
- Role based Authorization
- Hash Password (Encryption)
- CORS Policy
- OAuth 2.0 / Google Sign-In
- IP Block (Manually)

❖ Tools -

- Visual Studio
- VS Code
- SQL Server Management Studio
- Postman
- GitHub Desktop

❖ Others -

- Barcode Generation
- Local storage, Session storage

- **Shikkhanobish API** - (*Backend | ASP.NET Core Web API | RESTful Web API*)
Developed and maintained scalable APIs for student-teacher interaction, authentication, and course management.
 - **Shikkhanobish Website (Timeline & Question Making)** - (*UI | Frontend | Blazor*)
Designed and implemented interactive web pages for course timelines & question creation.
 - **Shikkhanobish Student App** - (*Mobile Application | Android | Xamarin UI*)
Built a user-friendly mobile app enabling students to attend classes, manage courses, and communicate with teachers.
- Note:** Developed and maintained an **In-house online education platform** by building custom solutions and services tailored to organizational needs.

❖ **Notable Academic Projects -**

- **House Rent** - (*ASP.NET Core Full-Stack Web*)
- **Online Device Shop** - (*ASP.NET Core Full-Stack Web*)
- **Akij Food** - (*RESTful Web API with ASP.NET Core*)
- **Student Management** - (*ASP.NET Full-Stack Web*)
- **Online Book Shop** - (*ASP.NET Full-Stack Web*)
- **Student Course Registration** - (*Desktop App with WinForms*)
